Summary

DevOps Engineer with over **8 years** of experience in designing, implementing infrastructure, CI/CD and automation. At MEGA, I have defined the **DevOps strategy** to drive innovation and accelerate delivery. I played a key role in establishing the foundation for developing and deploying multi-tenant SaaS applications. Beyond my technical expertise, I was the **primary advocate** for DevOps principles.

Experience

Mega International

Lead DevOps

July 2022 - Present

Paris (FRANCE)

Software company with solutions for Enterprise Architecture, Governance, Business Process Analysis, Data Intelligence etc...

- Directed the cultural change by **defining the DevOps strategy**
- Mentored** a team of three engineers and improved team productivity
- Designed Azure landing zone** for applications deployed to IaaS/PaaS
- Introduced automation **tools and processes** to ease the product life cycle, accelerating delivery through CI/CD pipelines, **Pull Requests**, and Infrastructure as Code (IaC) with **Terraform**.
- Managed packages and dependencies with **Azure Artifacts** ensuring consistent builds across environments
- Enforced **best practices** to ensure consistency and compliance
